

Line Frame Overview

This page holds only a heading and body text inside a page frame that is drawn from many separate thin lines and one filled inner rectangle.

A second paragraph of ordinary body text sits further down the page, well away from the frame and from the title block at the bottom.

	page 1 (4)	

Line Frame Diagram Page

This page adds a small flow diagram between two paragraphs. The diagram must be found as one region of about its own size, not as the whole page.

Line Frame Table Page

This page adds a small ruled table inside the page frame. The table must still extract as a table and must not merge with the frame.

Item	Value
Mode	Normal
Limit	Ten

A second paragraph of ordinary body text sits further down the page, well away from the frame and from the title block at the bottom.

Line Frame Closing Page

This last page repeats the frame once more with different body text, so every frame part repeats on all pages of the document.

A second paragraph of ordinary body text sits further down the page, well away from the frame and from the title block at the bottom.
